of the best quality, constantly on hand.  
JAS. E. EDWARDS,  
Quincy, Jan. 22, '63—24f Proprietor.

## WORDS OF KINDNESS.

Words of kindness, O, how gently  
Ye salute the troubled heart;  
Ye with joys do ever greet me  
When the world doth care impart,  
And I thank ye for the blessings,  
With the gladness of a child,  
While I prize your sweet ear caresses,  
Kisses, soft as music wild.

Words of kindness, whispers spoken  
By the angel soul of man,  
How I love to meet the token  
Of your presence here a span,  
Oh I think ye angel voice,  
Thrilling heaven strains of joy,  
And my soul with peace rejoices,  
Till I feel that God is nigh.

Words of kindness, pearls of lightness,  
Shedding lustre o'er the earth;  
Words of comfort to the sighing,  
Of sweet joy and mirth;  
Ye adorn the world with beauty,  
Lead me back to paths of peace;  
Reconcile the frail to duty,  
And bid woe and grief to cease.

Words of kindness, links of Heaven,  
O, how ye subdue the soul,  
Ye can soothe the heart once driven  
From life's sunny, happy goal,  
Thanks and praises now I offer  
To the God of earth and sea,  
And I hope that Heaven may proffer  
Words of kindness unto thee.

[For the QUINCY UNION.]

## MUSIC.

BY J. W. SNYDER.

Music is a harmonious arrangement of  
musical sounds. When properly executed  
with voices, or musical instruments,  
will delight the ear, and excite pleasing  
emotions in the mind.

Its origin may be traced back to the  
creation of man. The tones of the voice  
in speech and song are the same; so  
music may be considered as a part of,  
and natural to man. He is so formed in  
his physical being, that it is impossible  
for him not to be agreeably affected with  
the performance of harmonious concord  
of sweet sounds.

These sounds are not peculiar to man  
alone, but are found to emanate from al-  
most all living creatures, and also from  
many objects in inanimate nature.

With what delight do we hail the re-  
turn of the merry birds of sunny Spring,  
after a long Winter's absence. What  
thrilling emotions of pleasure pass o'er  
our minds as we listen to their joyous  
warblings at early dawn, on a bright  
Spring morning, as they vie with each  
other in singing their Maker's praise.  
How sad and mournful the wailings of  
the bird, whose little family has been de-  
stroyed by some cruel, unfeeling hand.—  
How deep, and how wild are its notes  
of sorrow, and how earnestly it pleads  
for the lives of its little household. How  
hard and unfeeling must the heart be,  
that can resist pleadings so full of sor-  
row, and deep, soul-stirring pathos. What  
charming music there is in the soft, mel-  
low notes of the most musical of all the  
songsters of the wild-wood—the nightin-  
gale, which trails out her enchanting  
strains, when the shadows of evening  
are gathering over the earth, as if to  
console and soothe it for the loss of the  
bright smiling sun.

There is majestic music in the deep  
roaring of the lion as it echoes and re-  
verberates along the mighty forest on a  
still calm night.

There is music of an almost infinite  
variety in the sounds produced by the  
different objects of inanimate nature.—  
There is music in the fall of the mighty  
cataract, as it rushes over the precipice  
to its awful depth below, sending up its  
everlasting song to Him who directed  
its course. There is music in the storm  
as it moves along in sublime majesty,  
that fills the soul with awe and admi-  
ration. There is music (a tremendous  
basso) in the deep rolling of the mighty  
thunder, as it echoes through the deep  
vault of Heaven. There is music (a beau-  
tiful tenor) in the fall of the sparkling  
fountain. There is music (a soft, sweet  
alto) in the gentle zephyr, as it floats  
through the pines. There is music (a  
clear, beautiful soprano) in the notes of  
the gale, whistling through the reeds.  
And what a delightful pause, in the calm  
of a beautiful Summer evening.

There is, in each tree, a sound pecu-  
liar to itself, produced by the flowing breeze.  
From the pine, a soft, mellow piping  
sound; from the willow, a deep hiss;  
from the oak, a pleasant rustle; from  
the sycamore, a deep, soft murmur;  
and from the yew tree, a solemn, mourn-  
ful funeral wail, each leaf adding its  
sing-like note to the grand-revival over  
the graves of the dead around it.

There is music in the motions of the  
celestial worlds, so sweet, heavenly and  
immortal, that we could not bear to hear  
and live, each orb of different magni-  
tude as it flies with inconceivable rapid-  
ity giving out its own peculiar sound  
to the sublime, harmonious symphony  
to the Almighty Architect of the Uni-

verse. This, we know, is but a fancy,  
but one, as vast, beautiful and imagina-  
tive as the mind can conceive, and which  
we may realize to be true, after we en-  
ter "the land of bright spirits," and im-  
mortal music.

"The spacious firmament on high,  
With all the blue ethereal sky,  
And spangled heavens a shining frame,  
Their great Original proclaim.  
What though in solemn silence all  
Move round this dark terrestrial ball?  
What though no real voice nor sound  
Amid their radiant orbs be found?  
In Reason's ear they all rejoice,  
And utter forth a glorious voice,  
Never singing, as they shine,  
The hand that made us is divine."

Music, when produced by the differ-  
ent objects of nature, animate and inani-  
mate, may be called natural, and that  
which is produced from musical instru-  
ments, constructed by the ingenuity of  
man, artificial.

We are all more or less familiar with  
the names of the many different musical  
instruments in use, throughout the mu-  
sical world, from which the skillful mu-  
sician produces such delightful music:

The organ, so universally celebrated  
for speaking forth the lofty harmonies of  
music.

The melodeon, a favorite musical in-  
strument, for its adaptedness for both  
church and parlor music.

The piano-forte, with her world-wide  
celebrity, for her delicate and beautiful  
trilling tones.

The harp, whose sweetly vibrating  
notes (in the hands of Israel's favorite  
king) could charm the troubled and  
maddened spirit of King Saul.

The guitar, with its gay, soft, floating  
melody, turning our minds to sunny It-  
aly, the favored land of sweet music and  
charming singers.

The flute, with its voice-toned notes.

The violin, the great, little master of  
all instruments, (constructed by man)  
when in the hands of a skillful Paganini,  
whose exquisite and ethereal tones can  
entrance the soul beyond the power of  
language to describe.

The human voice, the greatest of all  
musical instruments,—constructed by  
God Himself—with its deep, soul-thrilling  
pathos, and its soft, melting cadences.

There are six qualities of the human  
voice, when classified, viz: Male voice,  
—primo basso, baritone and tenore. Fe-  
male voice,—soprano, mezzo soprano  
and contralto. For instance, in the male  
voice, one may have a primo basso, an-  
other, a baritone and another, a tenore.  
In the female voice, one may have a so-  
prano, one, a mezzo soprano, and anoth-  
er, a contralto. Thus, we see that God  
has provided different voices to carry on  
different parts in the celebration of His  
praise, to make it grand, harmonious and  
beautiful, like all His works.

A good voice, capable of producing  
three octaves and a fifth of tones, can  
make in all forty-two different tones dis-  
tinguishable to the ear, and taking the  
twelve different keys in the major mode,  
and twelve in the minor, the single or-  
gan of the voice can produce this scale  
of forty-two notes in twenty-four differ-  
ent forms. According to the laws of  
vibration, or the science of acoustics, a  
voice, capable of sounding three octaves  
and a fifth, can make two thousand eight  
hundred and forty tones. How wonder-  
fully perfect is this musical organ in  
man—capable of producing so many dif-  
ferent tones from one pipe or organ. No  
wind instrument of music, constructed  
by the agency of man, can produce more  
than one tone from a single reed or pipe.  
These tones, whether they are produced  
from the deep organ of man, or from the  
sweeter organ of gentle woman, possess  
a charm and power, that thrills the soul  
with pleasure far more delightful than  
all the music of nature, or that can be  
drawn from cold and lifeless musical in-  
struments, by the skill of man.

(To be continued.)

GENTLEMAN—"My good woman, how  
much is that goose?"

MARKET WOMAN—"Well, you may  
have two for seven shilling."

GENTLEMAN—"But I only want one."

MARKET WOMAN—"Can't help it; ain't  
a-go'in' to sell one without the other."

They are geese, to my certain knowl-  
edge, hev been together for more'n a  
thirteen years, and I ain't a-go'in' to be so  
unfeelin' as to separate 'em now."

A MODERN WILL.—The following is a  
copy of a will left by a man who chose  
to be his own lawyer: "This is the  
last will and testament of me, John  
Thomas. I give all my things to my  
relations, to be divided among them the  
best way they can. N. B. If anybody  
kicks up a row or makes any fuss, he  
isn't to have anything. Signed by me,  
John Thomas."

## INTERNAL REVENUE.—INCOME TAX.

SEC. 116. And be it further enacted,  
That there shall be levied, collected and  
paid annually upon the annual gains,  
profits, or income of every person resi-  
ding in the United States, or of any citi-  
zen of the United States residing abroad  
whether derived from any kind of prop-  
erty, rents, interests, dividends, salaries  
or from any profession, trade, employ-  
ment or vocation, carried on in the United  
States or elsewhere, or from any other  
source whatever, except as herein-  
after mentioned, if such annual gains,  
profits, or income, exceed the sum of six  
hundred dollars, a duty of five per cen-  
tum on the excess over six hundred dol-  
lars; and a duty of seven and one-half  
of one per centum per annum on the  
excess over five thousand dollars; and  
not exceeding ten thousand dollars; and  
a duty of ten per centum on the excess  
over ten thousand dollars. And the duty  
herein provided for shall be assessed,  
collected, and paid upon the gains, profits  
or income for the year ending the thirty-  
first days of December, next preceeding  
the time for levying, collecting, and pay-  
ing said duty: Provided, That income  
derived from interest upon notes, bonds,  
and other securities of the United States  
shall be included in estimating incomes  
under this section: Provided, That only  
one deduction of six hundred dollars shall  
be made from the aggregate income of  
all the members of any family com-  
posed of parents and minor children or  
husband and wife, except in cases where  
such separate income shall be de-  
rived from the separate and individual  
estate, gains, or labor of the wife or  
child: And provided, further, That net  
profits realized by sales of real estate  
purchased within the year for which in-  
come is estimated, shall be chargeable as  
income; and losses on sales of real estate  
purchased within the year, for which in-  
come is estimated, shall be de-  
ducted from the income of such year.

SEC. 117. And be it further enacted,  
That in estimating the annual gains,  
profits, or income of any person, all na-  
tional, State, and municipal taxes, other  
than the national income tax, lawfully  
assessed within the year upon the prop-  
erty or sources of income of any person,  
as aforesaid, from which said annual  
gains, profits, or income is or should be  
derived, shall be deducted, in addition to  
six hundred dollars, from the gains,  
profits, or income of the person who has  
actually paid the same, whether owner,  
tenant, or mortgagor; also the salary or  
pay received for services in the civil,  
military, naval, or other service of the  
United States, including senators, repre-  
sentatives, and delegates in Congress,  
above the rate of six hundred dollars  
per annum; and there shall also be de-  
ducted the income derived from dividends  
on shares in the capital stock of any  
bank, trust company, savings institution,  
insurance, railroad, canal, turnpike, can-  
al navigation, or slack water company,  
and the interest on any bonds or other  
evidences of indebtedness of any such  
corporation or company, which shall  
have been assessed and the tax paid, as  
hereinafter provided; also the amount  
paid by any person for the rent of the  
homestead used or occupied by himself  
or his family, and the rental value of any  
homestead used or occupied by any per-  
son, or by his family, in his own right  
or in the right of his wife, shall not be in-  
cluded and assessed as part of the income  
of such person. In estimating the annual  
gains, profits, or income of any person, the  
interest over and above the amount of in-  
terest paid upon all notes, bonds, and  
mortgages, or other forms of indebted-  
ness, bearing interest, whether due and  
paid or not, if good and collectable, shall  
be included and assessed as part of the  
income of such person for each year; and  
also all income or gains derived from  
the purchase and sale of stocks or  
other property, real or personal, and the  
increased value of live stock, whether  
sold or on hand, and the amount of sugar  
wool, butter, cheese, pork, beef, mutton,  
or other meats, hay and grain, or other  
vegetable or other productions of the  
estate of such person sold, not including  
any part thereof unsold or on hand dur-  
ing the year next preceeding the thirty-  
first of December, shall be included and  
assessed as part of the income of such  
person for each year, and the gains and  
profits of all companies, whether incor-  
porated or partnership, other than the  
companies specified in this section, shall  
be included in estimating the annual  
gains, profits or income of any person  
entitled to the same, whether divided or  
otherwise. In estimating deductions  
from income, as aforesaid, when any  
person rents buildings, lands or other  
property, or hires labor to carry on  
land, or to conduct any other business  
from which such income is actually de-  
rived, or pays interest upon any actual  
indebtedness thereon, the amount actu-  
ally paid for such rent, labor, or interest,  
shall be deducted; and also the amount  
paid out for usual or ordinary repairs,  
not exceeding the average paid for such  
purposes for the preceeding five years,  
shall be deducted, but no deduc-  
tion shall be made for any amount  
paid out for new buildings, permanent  
improvements, or betterments, made to  
increase the value of any property or es-  
tate: Provided, That in cases where the  
salary or other compensation paid to  
any person in the employment or ser-  
vice of the United States, shall not ex-

# The Quincy Union.

All Letters relating to the business affairs of the paper should be addressed to the Publisher.

TO SUBSCRIBERS.  
No paper will be forwarded from this office unless the subscription is paid in advance. All papers discontinued when the subscription expires. The rule will be strictly enforced.

CORRESPONDENCE.  
Our friends everywhere, who may at any time have knowledge of facts of local importance—in-  
cidents, accidents, mining news, damage of public  
meetings, improvements, curiosities, etc.—would  
confer a favor upon us and our readers generally  
by sending notice of the same to this office. We  
use facts in any shape, and we will take care of them.

Snake Lake, March, 1864.  
ED. UNION.—I believe I made an as-  
sertion in my last letter, that mining was  
a profitable business, and I still affirm  
it to be a fair and honorable business  
for capitalists to engage in, offering  
profitable and honest chances of success,  
with more than ordinary returns upon  
the outlay employed; or is it, as those  
inexperienced in such pursuits would  
have the world to suspect, an illusion as  
regards honorable gains, and an incubus  
upon legitimate enterprise. The former  
state that it presents greater induc-  
ments for the investment of capital than  
any other medium of the day. Railways,  
Banks, and many other descriptions of  
companies stand insignificant in com-  
parison, not only as regards yield and  
profits, but likewise in security of prop-  
erty, even as it now stands, (without  
the interference of the Federal Govern-  
ment, in selling our mineral lands to  
raise a tax; notwithstanding, if Con-  
gress sees fit, be it so,) whilst the latter  
ad, or say, that it is often the vehicle  
chosen, in order to traffic with public  
credulity, entrapping the unwary specu-  
lator into schemes unworthy of atten-  
tion. To those, however, who doubt or  
desire to solve the question at issue, or  
are interested in the advancement of our  
State, and more particularly our county,  
we invite them to come to our valleys,  
and examine our lodes of copper ore,  
as well as our productive and profitable  
gold mines. Our veins or lodes vary  
in thickness and in direction, besides  
the counter lodes. Our mineral district  
possesses innumerable peculiarities and  
characteristics, which until lately were  
very imperfectly understood by the best  
of our practical miners. Hence, the  
hopes and disappointments to a great  
many that embarked in such pursuits.  
The aid of a little practical experience  
has done much to develop our mines so  
far, and knowing that our county with  
her mines does and will pay large divi-  
dends,—nay, thousands per cent upon  
the outlay, and yet, for want of a little  
necessary patience to await the devel-  
opment of the many lodes in our direct  
neighborhood, parties have sold and bar-  
tered away their fortunes.

Yours, Respectfully,  
D. W. HAMBLEY.

How to go it.—Go it strong in your  
praise of the absent. Some of it will be  
sure to get around.

Go it strong when you make love to a  
pretty widow. More people have erred  
by too little than too much in this par-  
ticular.

Go it strong when taking up contribu-  
tions for a charitable purpose. It will  
pay.

Go it strong when you make a public  
speech. Nine people out of ten never  
take any allusion unless it cuts like a  
short-handled whip or a rhinoceros cor-  
vide.

Go it strong when you advertise. Busi-  
ness is like architecture—its best sup-  
porters are full columns.

Go it strong and pay the printer.  
Never grudge him his price. Recollect  
it is he who brings customers to your  
very door, who otherwise would never  
discover your whereabouts.

A Musical Lecture.—"What is a slur?"  
"Almost any remark one singer  
makes about another."

"What is a rest?"  
"Going out of the choir for refresh-  
ments during sermon time."

"What is called singing with an un-  
derstanding?"  
"Marking time on the floor with your  
foot."

"What is a staccato movement?"  
"Leaving the choir in a huff because  
one is dissatisfied with the leader."

"What is a swell?"  
"A professor of music, who pretends  
to know everything about the science,  
while he cannot conceal his ignorance."

Of the 40,000 Chinese in this State,  
about 30,000 are engaged as miners, each  
paying, or supposed to pay, a monthly  
tax of \$4—\$120,000 per month to the  
State and county revenue. About 2,500  
work on ranches; about 1,000 as cooks  
and private servants, and nearly 5,000  
are merchants, traders and beggars.

Two Old Boys.—Two brothers, Rich-  
ard and Thomas Almy, of Dartmouth,  
N. H., dined together on Thanksgiving  
Day. One was aged 90, and the other  
92 years.

## QUINCY.

SATURDAY, MARCH 18, 1885.

THANKS.—To Shannon, M. C., for public documents.

THE REASON.—The absence of the editor of this paper, (who has been sojourning in the land of sagebrush) for the past two weeks, is the only apology we have to offer for the small amount of "editorial" in this number.

EASTERN NEWS.—The news from the East during the past week, is unimportant. The Richmond papers claim that Bragg had defeated a small force of our army, and captured 300 prisoners. The report is not confirmed.

AN EXCHANGE says: "In this section the whisky is so weak since the war tax struck it that it is run in candle-moulds, frozen, and sold by the stick!"

Your citizens are all "suckers," ain't they?

LASSEN AND PLUMAS.—Sec. 23 of the Act, creating Lassen county, reads as follows:

Said Lassen county shall, within eighteen months after its organization, cause so much of its western boundary line, which runs due north, to be surveyed, and shall give timely notice to the Supervisors of Plumas and Shasta counties, when such survey will be made, and all expenses of said survey, whether incurred on the part of Shasta or Plumas county, or otherwise, shall be paid by Lassen county.

If the conditions of the above section are carried out, the Supervisors of Lassen will order the survey to be made during the coming summer.

INDIAN MASSACRE.—The Nevada Transcript is informed that a gentleman who recently came to that city from Surprise Valley states that many of the settlers residing there had been killed by the Indians. During the latter part of last Fall, large numbers of cattle were being ranches in the valley, but they had probably been driven into the market before the commencement of the winter. Surprise Valley is located in Sierra county, near the Nevada line.—(S. Union.)

Surprise Valley is not located in Sierra county, near the Nevada line—that's certain—but Shasta, Siskiyou and Lassen counties all claim that Surprise Valley, or a portion of it, is within the boundaries of their respective counties.

A NEW PARTY.—The S. F. Flag, of the 9th inst., publishes a long editorial, headed, "The Great Union Party of 1865," in which it gives a short resume, of the principles of the old Democratic and Republican parties, and of the Union party of the present day. In the article the editor considers the Roman Catholic influence, as being "The source of the majority of the evils under which we labor." He says:

An American Protestant Party is what the country needs to save it from future peril, and that party it must have, even if it be necessary to extend the right of suffrage to the negro. Many of these are already voters by virtue of the property qualifications prescribed by the law, and we have yet to learn that they have in any instance abused their prerogative. Can we suppose that the rest would use it less worthily, or with a lighter sense of its value than the benighted race who, at the instigation of a Jesuitical priesthood, would without hesitation forego their new allegiance and lay out towns and cities in ashes, or fields level with the dust, at the bidding of a Pope dictating his laws, and exacting the fulfillment of his behests from thousands of miles over the seas?

Add the influence of the Monroe Doctrine—always a favorite hobby with our countrymen—and the enumeration is complete; the object for which our Government was instituted is attained.

SCENES IN THE SENATE.—I had the pleasure of listening not long ago to a well deserved rebuke given by Senator Conness, on the floor of the Senate Chamber to Powell of Kentucky. Powell is peevish, irritable, and in his prejudices perfectly unreasonable, and when he gets to talking, Shades of Xantippe! the benches are cleared in a trice—if his bile were as bad as his bark, it would be a finisher; but Powell is all bark or rather growl. Mr. Conness is ever vigilant on every important question that comes up, and there are some people who wish he wasn't quite so wide awake; if he would only take to napping, to oblige them. They find his alertness troublesome sometimes; and this was what started up Powell, but those whose interests he represents on that floor will rest secure, that their interests are safe in his care, and that he is always on hand at the right time.

HOWARD GYNDON.

—[Cor. Flag.]  
CANDIDATE FOR SUPREME JUDGE.—Chief Justice Sanderson of the Supreme Court has written a letter to the lawyers of San Francisco, that he will allow his name to be used as a candidate for Supreme Judge next fall. The letter was called out by the San Francisco gentlemen who wrote him on the subject, and solicited him to permit his name to appear in connection with the office.

## MYSTERIES OF THE INCOME TAX.

The income lists cause no little astonishment and curious speculation. They are as extraordinary in omissions as in disclosures. They make one think of the general confession in the ritual—"We have left undone those things which we ought to have done; and we have done those things which we ought not to have done, and there is no health in us"—a confession which a large number of the taxed ought to make with deep compunction. The lists show a melancholy degree of unproductiveness in real and personal estate, and still more in trade. Men doing business with capitals of from ten to twenty thousand dollars, and generally supposed to be sagacious and successful, are found to have realized less than the salaries paid to good clerks. They would have made more money by loaning their capitals to the government and going behind the counter on salaries. Indeed the very small proportion of traders who acknowledge that they are making so much as a living by their incomes is astonishing and almost incredible. The most surprising cases of this sort are found among the liquor dealers, whose profits have been supposed to be enormous, some of whom do not report the \$1100 income necessary to procure honorable mention in the newspapers, and others of whom report incomes that cannot half support their families. Some of our men of leisure popularly supposed to be living on their interest money, have no incomes at all, or none worth reporting, and yet live in as good style as those who acknowledge incomes of \$10,000 a year. We presume it is the cost of supplying the tables of these poor rich men gratuitously, that keep the incomes of the grocers and butchers so miserably small. There ought to be no more complaints about high prices and exorbitant profits while the tax lists prove that not half our tradesmen make a comfortable living. Evidently they cannot go on in this way for any length of time, and they ought not to be allowed to sacrifice themselves for the public convenience and comfort.—The salaries men generally report their incomes at what they are known to be, but it is a curious fact, developed in many instances, that when a salaried man has other sources of income in addition to his salary they reduce instead of increase it, and he reports a smaller income than his employers' books show against him in clear cash.

But there is no end to the mysteries of the income lists. Our faith in human nature would be seriously shaken if we could believe that all, or a majority, of the under estimates of incomes show a deliberate purpose to cheat the government. We must charitably believe that most of them grow out of a misapprehension of what the law requires. The most common error seems to be to suppose that the yearly income consists of what is left of the years gains after paying family and other expenses! Others go a step further, and if they have invested these net gains in an increase of their business, are unable to see that they have any income at all. Thus, if a liquor seller has made ten thousand dollars during the year, and has spent three thousand and invested seven thousand in liquors to be sold in the following year, he has no income at all to report; and the owner of a twenty thousand dollar tenement house, who has expended the four thousand dollars received for rent in additions to the house, which will increase the rent to \$5000 another year, comes to the conclusion that the property has brought him no income for the year. It is reported that some assessors have sanctioned the principle of deducting from incomes the amount invested in the enlargement of the business from which the incomes are derived, and that this accounts for the fact that some report small incomes or none at all who are known to have regular incomes from year to year of some thousands of dollars. If any officials have done this, they have only proved their ignorance of the law. If the principle should be allowed, there would soon be very few incomes to be taxed, for whatever is not spent during the year is of course invested in some shape. What the law demands is plain enough. It requires the tax to be paid on all incomes over \$600, whether from labor, interest, profit of trade, or whatever source. If a trader begins the year with \$20,000 capital, and finds that at the end of the year he has \$30,000, and has spent \$5,000 in expenses of living, his income is \$15,000, and he should pay a tax on that amount less \$600. This matter is so plain that it is difficult to see how mistakes such as are made can be honestly made; and yet we must charitably believe that they are. If they are, the proof of the honesty will come in the shape of amended returns.—[Springfield Republican.]

This view of the much vexed question seems to us to be more in point than any we now recollect having seen from any source. In examining the income list of this division, (published last week) and from a conversation with Mr. Seabury, Mr. Avery's Assistant here, we incline to the opinion that those who are liable, have, as a general thing, (there are exceptions, of course,) made full, fair and honest returns, and that the total assessments in this county will compare favorably with that of any other county in the State. From a division containing less than seventeen hundred voters, a National tax is sent up of over twenty-one thousand dollars, which we think speaks well for the efficiency of the service in Mr. Avery's Department, or the honesty and patriotism of our citizens, or both, and until some of our contemporaries make as good an exhibit from some of the mountain districts containing no greater voting population, we shall claim that ours is the most prosperous of the mountain districts.

## MISCELLANEOUS ITEMS.

TWO MINERS, named Parsons and Shultz, were killed on Jackson Creek, Oregon, on March 7th, by caves.

J. G. GILES dropped dead, of aneurism of the aorta, while reading at the table at San Francisco, on the evening of the 8th inst.

Among the many facts showing American superiority in war, one of the greatest is, that there has been scarcely any failures in the numerous inventions of cannon which the great emergency has produced.

SHOT BY HIS OWN SON.—W. A. Boyce, a resident of Tuolumne county for many years, was accidentally shot by his own son, lately, while out in the mountains hunting, near Davis' Flat, from the effects of which he died. The cock of the gun, in the hands of the boy, was caught by the limb of a bush. Boyce was a native of North Carolina, about sixty years of age, and leaves a large family to mourn his loss.

SENSIBLE MAN, FOGG.—The Oakland Justice is a clear-headed man, although his name indicates mistiness. The other day a Greaser was brought before him for drunkenness, and promptly fined five dollars. Not having a cent to pay the fine, the Justice took this note for the amount, and told him to vamoos. By doing this, "killed two birds with one stone." He saved the county the expense of feeding the culprit while in prison, and also rendering it pretty certain that the Greaser will not trouble his Court any more while that note remains.—[S. F. Call.]

A private dispatch says that a large sale of gold on California account was effected on Saturday in New York at 192. Other dispatches quote gold at 191 1/2.

WHITTLED DOWN.—The rebel Confederacy has been whittled down to a portion of Virginia, and the two Carolinas,—of a truth, it is becoming "small by degrees and beautifully less."

The proposed railroad from Marysville to Portland, Oregon, if built will be 650 miles long, and will cost \$3,500,000. Congress has passed a bill in aid of its construction, and two companies—one in each State—have been incorporated to carry out the work.

NEW MARYSVILLE THEATER.—The contract for the construction of the new theater has been let to Wm. C. Swain, for \$21,500. Its style will be similar to that of the Academy of Music—size 54 feet by 118.

The robbery of the Philadelphia Custom House amounts to ninety thousand dollars, in gold and notes. Three bags of gold were left by the thief, and also his implements, viz: Chloroform, a revolver, and some gunpowder.

GOING LIKE HOT Cakes.—Horace Greeley's "History of the American conflict" has attained a sale of seventy thousand copies, and a German edition is in course of preparation.

Last month Wells, Fargo & Co.'s Express carried silver bullion of the value of \$79,083 16 from Austin, State of Nevada.

VANDERBILT TAKEN TO THE TOMBS.—Commodore Vanderbilt was arrested in the street, in New York, recently, for driving over a lady named Mrs. Caroline Walter. He was taken to the Tombs Police Court, but no complaint appearing, the case was dismissed.

JOHN BROUGHTON received \$2,500 for a new spectacle for Adah Isaacs Menken.—[Exchange.]

Dear, very dear, We would have given her two "new spectacles" for half the amount.—[Appeal.]

The Springfield Republican knows of an Irishman who cannot write his name who has stored up \$40,000 in gold and \$26,000 in river coin. He never drank a drop of liquor in his life, and don't stand on street corners puffing away his earnings in a filthy "dundee." It is lucky for him that he "cannot write his own name," so he will get rid of endorsing the notes of his friends.

FIRE AT YREKA.—A dispatch dated at Yreka, March 7th, says:

About twelve o'clock last night some wooden structures, in the rear of the brick block on Miner street, known as Callon's Buildings were discovered to be on fire. So rapid were the flames that before the iron window shutters could be closed, the fire reached the inside of the second story, which was occupied by the Union printing office. The entire office, with the exception of two presses, was destroyed. The stock of E. Lauer's dry goods store, in the basement, was almost entirely destroyed by water from the engines. The fire was extinguished in about an hour. The losses, as given by the proprietors, are as follows: E. Lauer, proprietor of the building, \$10,000; Hackett & White of the Union, 1,500; Rosenberg, \$200.—Lauer is partially insured. No insurance on the Union office. The fire is supposed to have been the work of an incendiary.

Rags are being collected in some parts of the State for the use of the paper mills at Tomales and San Lorenzo.

A STEAM-ENGINE was lately stolen at Virginia City, Nevada. Some of the State officials must have been around.

APPOINTMENTS FOR SAN FRANCISCO.—Frank Soule has been appointed Internal Tax Collector for the San Francisco District, vice Curtiss. Lucien Curtiss has been appointed Assessor of the same district, vice Fay.

The number of camon captured from the rebels from May 1, 1864, to March 1, 1865, is estimated at 1,301. During that time we have lost but thirty-five guns.

TO BE HUNG.—The Supreme Court yesterday decided that Poole, one of the Placerville robbers, convicted and sentenced to death some time since, should be hung, and directed the Court below to appoint the day of execution.

WM. D. REESE committed suicide by shooting himself at San Gabriel Mission, Los Angeles county, on the 26th of last month.

LAW INSTITUTE.—An institution for the education of attorneys has been opened at San Francisco, and now has thirty-eight members.

M. V. WILKINS, formerly of Grass Valley, Nevada county, committed suicide at Healdsburg, Sonoma county, on the 28th ult., by taking strychnine. Cause, pecuniary embarrassments.

The total amount of matter which passes through the New York Postoffice, and is handled by the clerks, is not far from forty-five tons daily.

The Virginia City press are discussing the propriety of repudiating all the indebtedness incurred by the Common Council beyond the limit allowed by her charter—\$100,000.

CAPT. STUART, of the 16th regulars, on trial at Washington, is charged, among other things, with administering this comprehensive oath:—"You solemnly swear you will support Old Abe as long as you live, and be a good boy, God damn you."

SUCCESSFUL.—The Gold Hill (Nev) News of March 6th says:

One of Gold Hill's oldest and most persevering miners—Manseau—is happy at last. He has toiled and toiled, and at last has his reward. He is, the lucky owner of fifty feet in the Yellow Jacket mine, which this day paid him over the handsome sum of \$3,750, as his share of the dividend just declared on his stock—and which he could sell for the respectable sum of \$100,000. So much for four years hard labor in a Gold Hill mine—and having but little to start with except health and a stout and hopeful heart.

LEG BROKEN ON A BET.—The Grass Valley National of March 7th says:

An acquaintance of ours gives us the following item: Some time ago a gentleman living near Grass Valley made a bet with another man in a saloon that he could kick a stove over sittin' in that place and not hurt himself. The bet was made and the fellow did the kicking, but in doing so he broke his foot across the instep—his foot and ankle being of wood. He won the bet, but it cost him \$20 to get his foot repaired.

COUNTRY NEWSPAPERS.—We wish the citizens of every county, especially the working men—the real industrial of our towns—would feel a proper interest in local papers and give them a just and liberal support. There are many ways in which the citizens of all classes can aid their own county journals, and do a great good to the public as well as advance their own interests. There are three ways which occur to our mind in which citizens can aid the newspapers of their own counties, and these plans they should be sure and carry out. 1st.—They should subscribe and pay for the paper voluntarily and cheerfully, as a means to advance the interests of their community. 2d.—They should communicate often with the editor, and be ready to make known to him all the important facts, the publication of which will advance the true good of that county. Giving him information of the success of every production of the earth, and especially new products, and of all inventions or discoveries, the knowledge of which will do good to somebody; all information about schools, roads, bridges, markets, etc. By a manifestation of such an interest for their own paper, men advance their interests and take the very means for prosperity to themselves. 3d.—They should not only inform the editor what has been done, but show him what can be done by the exhibition of the product thus grown or manufactured. The office of the country newspaper should be the bulletin-board and the barometer that shows the prosperity of the county. By such a course there never would be a complaint that the newspaper is not worth taking, for it would be a paper made by the people themselves and full of interest to them. We have always found the best and truest patrons of our paper among those men who were the subscribers of our county papers, and when they have thus become interested in their local paper, they are ready to receive one of a wider or more extended circulation, and embracing interests identified with their own.—[Cal Farmer.]

SACRAMENTO.—The "Boys" or "Short Hairs" were victorious at the late city election in Sacramento:

GOLD.—In New York on Tuesday gold was selling at 197, equal to 50 1/2 cents for greenbacks. In San Francisco yesterday greenbacks sold at 51 1/2, a price taking the difference of exchange into account, of one and a half of two per cent. lower than in New York.

## Special Notices.

### Information Wanted.

Information is desired of the whereabouts of Ignacius Noble, the husband of the subscriber, formerly from Ottumwa, Wappello county, Iowa. He came to this State in 1850, and when last heard from which was in 1854, was at Chico, Butte county.

Also, of Robert W. Noble, the son of the subscriber, formerly from the above mentioned place. He left his home eight years since, and probably came to California six years ago.

The subscriber can be addressed at Greenville, Plumas county, Cal.

ELEANOR NOBLE.

20-4f

## Delta Silver and Copper Mining Company.

Union District, Plumas County, Cal.

NOTICE is hereby given that at a meeting of the Board of Trustees, held on the 27th of February, 1885, as assessment of twenty-five cents per share was levied on the capital stock of said company, payable immediately in gold coin, to the Secretary, Henry Robinson, at his office in Chico, Butte County, Cal.

Any stock upon which said assessment, shall remain unpaid on the first day of April, 1885, will be advertised as delinquent, and unless payment shall be paid before will be sold on the 20th day of April, 1885, to pay the delinquent assessment, together with the cost of advertising and expenses of sale.

HENRY ROBINSON, Sec'y.

OFFICE: Robinson & Hall's Brick, Chico, Butte County, Cal.

20-4f

## Wanted!!

Two JOURNEYMEN BOOT & SHOEMAKERS. Wages,—by the month or piece. Constant employment given.

R. MORREL,

16-2w Taylorville, Indian Valley.

## Dissolution.

THE CO-PARTNERSHIP heretofore existing between W. Myers and the undersigned, was dissolved on the 1st of December, 1884. I hereby give notice that I will not be responsible for any debts contracted by the said W. Myers, after that date.

PETER ANDERSON,

Sierra Valley, Feb'y 8th, 1885.

## Coughs and Colds.

The sudden changes of our climate are sources of Pulmonary, Bronchial and Asthmatic Affections. Experience having proved that simple remedies often act speedily when taken in the early stages of the disease, recourse should at once be had to "Brown's Bronchial Troches," or Lozenges, let the Cold, Cough, or Irritation of the Throat be ever so slight, as by this precaution a more serious attack may be effectively ward off. Public Speakers and Singers will find them effectual for clearing and strengthening the voice. Soldiers should have them, as they can be carried in the pocket and the occasion requires.

Agents for California, REDINGTON & CO., San Francisco.

19-1m.

## SOOTHING & BRACING.

THERE IS NO PREPARATION IN EXISTENCE WHICH HAS SUCH A SOOTHING EFFECT IN CASES OF NERVOUS EXCITEMENT AS DR. HOSTETTER'S STOMACH BITTERS. ALTHOUGH THE FAME OF THIS RENOWNED INVIGORANT RESTS MAINLY ON ITS ASTONISHING CURES OF DYSPEPSIA, LIVER COMPLAINT, AND INTESTINAL DISORDERS, IT IS EQUALLY EFFICACIOUS IN NERVOUS COMPLAINTS. THOUSANDS OF LADIES RESORT TO IT AS A REMEDY FOR HYSTERIA, FLUTTERING OF THE HEART, NERVOUS HEADACHE, VERTIGO, GENERAL DEBILITY AND ALL PECULIAR DISTURBANCES AND DERANGEMENT, TO WHICH, AS A SEX, THEY ARE SUBJECT. IT CHEERS AND LIGHTENS THE DEPRESSED MENTAL POWERS AS WELL AS STRENGTHENS THE BODY, AND ITS USE IS NEVER FOLLOWED BY ANY UNPLEASANT REACTION. SOLD BY ALL DRUGGISTS AND DEALERS EVERYWHERE.

HOSTETTER, SMITH & DEAN,

B-10-1m San Francisco.

## Crescent Extension Quartz Mining Company, Indian Valley, Plumas County, California.

WHEREAS, Stockholders representing more than two thirds of the Capital Stock of said mining Company, have expressed their desire for the removal of the office or principal place of business of said Company, from Indian Valley, Plumas county, of the State of California, to the city and county of San Francisco, and have given their consent in writing for such removal as by statute required. Notice is hereby given to all parties interested that in accordance with the act of the Legislature approved February 5th, 1864, the Board of Trustees, of said Company will after the publication of this notice for thirty days from the first day of publication take the proper steps to legalize the removal of the office or principal place of business of said Company.

SAMUEL J. HEGEMAN, Secretary.

October, '64. 11-4f.

### Summons.

STATE OF CALIFORNIA, County of Plumas.

Action brought in the District Court of the Second Judicial District.

Hough & Bro., vs. J. A. Whitmore.

The People of the State of California send greeting to J. A. WHITMORE, Defendant:

YOU ARE HEREBY SUMMONED TO APPEAR in an action brought against you by the above named Plaintiff, in the District Court of the Second Judicial District of the State of California, in and for the county of Plumas, and to answer the complaint filed therein, (a copy of which accompanies this Summons) within ten days, (exclusive of the day of service,) after the service on you of this summons—if served within this county; or, if served out of this county, but within this Judicial District, within twenty days; or if served out of said District, then within forty days—on judgment will be taken against you according to the prayer of said complaint.

The said action is brought to recover judgment against you for the sum of four hundred and fifty-two and 10/100ths dollars, alleged to be due to plaintiff, from you on a certain promissory note dated September 22d, 1883, and on a book account for ranching, feeding stock, horses, &c., and for flour, provisions, &c., sold by plaintiff to you. And you are hereby notified, that if you fail to appear and answer said complaint as above required, the said Plaintiff will take default and judgment by default, as prayed for in said complaint.

Given under my hand and the seal of the District Court of the Second Judicial District of the State of California, in and for the county of Plumas, this 25th day of March, in the year of our Lord One Thousand Eight Hundred and sixty-four.

W. W. KELLOGG, Clerk.

14-3m

### LOCAL ITEMS.

**PRACHING.**—Divine service will be held at the Court Room, to-morrow, at 11 o'clock, A. M.

**CRESCENT CO.**—The Crescent Mills cleaned up \$3,500, for last week's run of five days.

**ASSESSMENTS.**—We understand that our County Assessor will commence making the assessment of property in this county about the 1st of April.

**SMELTING WORKS.**—The Copper Smelting Works, in Genesee Valley, commenced smelting ore on Monday last.

**SCHOOL EXHIBITION.**—A Public School Exhibition will be given at the Pioneer District school house, in American Valley, on Friday evening next, March 24th.

**BUILDING UP.**—A friend at Genesee Valley informs us that contracts for putting up twelve dwelling houses in the town of Chapman, have been let, and work upon several of them has been commenced.

**CHANGE.**—Mr. C. F. Low, who has been carrying the mail between this place and the Buckeye during the last ten months, left for a trip to Oregon a few days since. Mr. J. G. Coburn will act as mail carrier on the route, until Mr. L. returns.

**FEDERAL ASSESSOR.**—Esq. Seabury is in town, and will call upon all our citizens, in the course of the coming week, for an account of their financial operations for the year 1864. The assessment list will be published as soon as it is completed.

**IMPROVEMENTS.**—We notice that several of our citizens are at work, making improvements upon their town property by setting out fruit and shade trees, building and repairing fences, &c., &c. The fence around the Plaza will be completed next month.

**SHOT.**—It is reported that Walker, the man who boarded in our county jail for about three months, last Fall, at the expense of Lassen county, was shot by a man, named —, in Susanville, one day last week. We did not learn any of the particulars of the transaction.

**HURRY UP!**—Some of our regular correspondents have been very irregular in forwarding their communications during the past three weeks—no, we mistake—they have been very regular in not forwarding them at all. Hope they will try to do better.

**MINING ACCIDENT.**—A few days since, a Chinaman was severely injured by the bank caving in upon him, while at work in Hyde & Co.'s claims, on 12-Mile Bar. The bones of one of his legs were broken in several places, and he lay in that condition for several days, awaiting the arrival of a Chinese doctor, from Oroville. At last account his leg was badly swollen, and will, in all probability, have to be amputated.

**CORRESPONDENCE.**—On the first page of this paper, we publish a letter from Mr. Hamby, on the subject of mines and mining. We also publish a communication from J. W. Snyder, upon "Music." The communication is interesting and well written, and shows that he understands the subject thoroughly. Mr. S. has promised to furnish us a series of letters upon the same subject for publication.

**GREELEY'S CONFLICT.**—In answer to "Anonymous," asking, "What has become of the Agent for Greeley's American Conflict?" we have to say that S. F. Seabury, the Assistant Assessor of the 10th Division, is the Agent for this great national work, and is at this time going through his division taking the Income Assessment, and gives every one an opportunity to subscribe for the work, who may want it. And as he has just dropped into our office, we asked him to give "Anonymous" some answer, to which "Old Rough" responds: That we can assure "Anonymous," he is getting around as fast as he can—that he is not exactly omnipresent, although tax payers seem to think he is—that he will give "Anonymous," and everybody else, a chance to subscribe, but can't, nor won't neglect his official duties on any account, until this portion of them are all completed—that one can give in his name, or forward it to him, and he will enter it upon the list of subscribers, and as soon as the roads are open from below, the books subscribed for, will be ordered, and forwarded, and delivered, on payment of the price of subscription. This ought to be satisfactory, and we advise every one who can afford it, to subscribe at once, as the work, in the language of a leading Democratic paper, "should find a prominent place in every man's library, whatever may be his politics or prejudices."

**EXPIRED.**—The Legislature of Nevada expired by limitation of Constitution at 12 o'clock Saturday night, having been in session ninety days.

The trotting match at Bay View Park, for sweepstakes of \$1,500, mile heats and repeat, between Jenny Noyes, Wm. H. Seward and Hector, was won by Jenny Noyes. Seward won the first heat, Hector the second, and Jenny the last two. Time, 2:40½, 2:40, 2:43, 2:43½.

A New Orleans letter of the 22d February, announces the arrival there of 2,500 exchanged prisoners from Texas, including a number of naval officers.

R. M. Clark, of Carson City, has received the appointment of United States District Attorney for the State of Nevada.

Bloody, the rope walker, has failed, his treasurer having absconded with \$63,000 of his funds.

**DR. J. M. MORENO'S**  
**Medical & Surgical**  
**INSTITUTE,**  
**San Francisco.**

NO. 619. KEARNEY STREET.  
Corner Commercial Street.  
Established in 1852 for the permanent cure of all Private and Chronic Diseases, and for the Suppression of Quackery.

**DR. J. M. MORENO,**  
Formerly of Valparaiso,  
**Attending & Resident Physician.**

**PARTICULAR ATTENTION PAID TO THE** treatment of Diseases of Women and Children. Communications strictly confidential, and all correspondents promptly answered. Consultations by letter or otherwise free.

To those who are Afflicted.

DR. J. M. MORENO returns his sincere thanks to his numerous patients for their patronage, and would take this opportunity to remind them that he continues to consult at his Institute for the cure of all forms of Private Diseases, such as Syphilis, Gonorrhea, Nocturnal Emissions, and the consequences of self abuse. In the first stages of syphilis or gonorrheal diseases, he guarantees a cure in a few days without inconvenience to the patient, or hindrance to his business. When a patient by neglect or improper treatment, has developed the secondary symptoms of syphilis, such as painful swellings on the groins, or ulcers in the throat and nose, which if unchecked, destroy the soft parts and cause the bone to mortify, separate and come away, leaving the sufferer an object of horror to behold, or when blotches and pimples break out on the skin, or when he has painful swellings upon the bones, or when his constitution is injured so as to predispose to consumption or other constitutional disease, the Doctor guarantees a cure or asks no compensation. In rheumatism, chronic or acute, in dysentery or diarrhoea, he has safe and effectual remedies. For the treatment of the consequences of self abuse, such as nocturnal emissions, nervousness, timidity, headache, ringing in the ears, pains in the back and limbs, with general weakness, loss of appetite, loss of memory, injury to the sight, restlessness, confusion of ideas, dislike for society, and a feeling of weariness of life, the nervous system so excitable that slight noises shock or startle the patient, making his existence miserable. For the above maladies, the Doctor will guarantee a cure, without mercury or any injurious drugs, or ask no compensation. He can be consulted free of charge, and invites all to call, as it will cost them nothing, and may be much to their advantage. Office hours from 9 A. M. to 9 P. M.

**Spermatorrhoea.**  
Or local weakness, nervous debility, low spirits, lassitude, weakness of the limbs and back, indisposition and incapacity for labor and study, dullness of apprehension, loss of memory, aversion to society, love of solitude, timidity, self-distrust, dizziness, headache, involuntary discharges, pains in the side, affections of the eyes, pimples on the face, sexual and other infirmities in man, are cured without fail by the justly celebrated physician and surgeon Dr. J. M. Moreno. His method of curing disease is new (unknown to others) hence his great success.

**No Necessity for a Personal Interview.**  
Persons residing at a distance who find it inconvenient to leave their business and visit the Doctor at his office, by sending a full and minute description of their complaint, together with ten dollars, can have their medicines forwarded to any part of the Pacific coast, together with full directions for use, without charge for medicine.

**Preventive.**  
Persons who wish to guard against disease or the natural consequences of the marriage state, can have a preventive forwarded that can be relied upon at all times, by sending two dollars enclosed in a letter directed to Dr. Moreno, Box 128, P. O., San Francisco.

**Certificate for Dr. Moreno.**  
"This is to certify that having suffered for a long time and almost without hope of recovering my health, I am indebted to the skillful and humane treatment of Dr. J. M. MORENO, and that by his skillful and humane treatment, in a comparatively short time, not only effected a perfect cure of my disease and restored me to my usual health, but also effected all traces of my unhappy malady. Therefore, I recommend to all suffering from the same cause, to apply at once to Dr. Moreno, where they are sure to receive all the attention and help a skillful physician can give."  
J. M. J. REED, Sausalito Rancho."

Subscribed and sworn to before me this 14th day of April, A. D. 1863.  
A. G. RANDALL, Notary Public.  
State of California, county of San Francisco.

**Medical Advice.**—Without intending to particularize any from among the many distinguished physicians of this city, we cannot avoid referring to the successful treatment of cases which have come under our observation, by Dr. W. K. Doherty, No. 521 Sacramento street, San Francisco, and the gratitude felt towards that gentleman by those who a short time ago, were tottering to the grave, and are now in the enjoyment of health and happiness, freed alike from their poisonous affections, and the equally deadly effects of vile drugs. That their gratitude was sincere, we have not the slightest doubt, as was also their regret for having wasted so much of their time and money on some of the old school physicians, without a particle of benefit resulting therefrom. We do not think we could better consult the public good than by advising "all" who are afflicted to give Dr. Doherty a call.—San Francisco News.

**DR. W. K. DOHERTY'S**

**C. W. MOORE, M. D.,**

Late Surgeon, U. S. A., Quarantine Physician at New Orleans and Boston, Lecturer on Morbid Anatomy and Diseases of Women and Children, Member of Massachusetts Medical Society, etc.

**DR. MOORE WOULD RE-**

spectfully inform the people of California that he has established an Institute for the

**CURE OF DISEASES,**

WHETHER CHRONIC OR ACUTE.

AT 641 COMMERCIAL STREET.

A few doors below Kearney, where he may be consulted at all hours.

**DISEASES OF THE UTERINE AND OVARIAN FUNCTIONS**

Characterized by irregular, suppressed or painful menstruation, pain in the sides and back, sensation of weight in the pelvis, excessive nervous irritability, leucorrhoea or whites are treated on scientific principles and a prompt and permanent cure effected.

**NERVOUS AFFECTIONS.**

Such as neuralgia, paralysis, giddiness, dimness of vision, etc., will receive special attention.

**DISEASES OF THE SEXUAL ORGANS.**

Male and female, are treated with all the skill and appliances which modern science has made available. Nauseous drugs and nostrums which are so often administered for weeks without benefit, are entirely discarded, and a few days only are required to accomplish a perfect cure.

**SECONDARY AND HEREDITARY AFFECTIONS.**

Resulting in all its manifold forms, Dyspepsia, Emaciation and debility, treated with certain and unailing remedies—speedily expelling all corrupt humors, and imparting a healthy tone to the blood, regulating the secretions, and reinvigorating the vital powers.

Twenty years practice in different parts of the world, has given the doctor advantages possessed by few, and his remarkable success warrants a promise of effectual cure.

Medicines with full directions will be sent to any part of the State on receipt of letter describing symptoms.

**TO THE LADIES.**

Females in trouble, or afflicted with disease, are respectfully invited to call on DR. MOORE and consult him about their troubles. His uniform success in his treatment of female diseases, and his kind and considerate attention to the sufferer, have secured for him a large and increasing number of patients. Let no lady hesitate to consult him, but call at once, and save yourself from future suffering and misery. Consultations are confidential, and his offices are arranged for the strictest privacy.

Address, 641, Commercial street, San Francisco. 12-3m

**HARPER'S**

**NEW MONTHLY MAGAZINE.**

(Critical Notices of the Press.)

It is the foremost Magazine of the day. The friends never of unflinching reading such as can be found in the most enterprising friend, than Harper's Magazine.—(Methodist Protestant, Baltimore.)

The most popular Monthly in the world.—(New York Observer.)

We must refer in terms of eulogy to the high tone and varied excellence of HARPER'S MAGAZINE—a journal with a monthly circulation of about 170,000 copies—in whose pages are to be found some of the choicest light and general reading of the day. We speak of this work as an evidence of the American People, and the popularity it has acquired is merited. Each number contains fully 144 pages of reading matter, appropriately illustrated with wood-cuts; and it combines in itself the very monthly and the more philosophical quarterly, blended with the best features of a daily journal. It has great power in the dissemination of a love of pure literature.—(Tribune's Guide to American Literature, London.)

The volumes bound constitute of themselves a library of unapproachable reading such as can be found in the same compass in any other publication that has come under our notice.—(Boston Courier.)

**California Subscriptions.**

**1865.**

Being desirous of extending the influence of their publications in this section, the Publishers of Harper's Magazine and Weekly will pay particular attention to subscription from the PACIFIC STATES, and subscribers may rely upon the prompt arrival of their Magazines by mail.

The Publishers have perfected a system of mailing by which they can supply the Magazine and Weekly promptly to those who prefer to receive their periodicals directly from the Office of Publication.

The postage on Harper's Magazine is 24 cents a year, which must be paid at the subscriber's post-office.

**Terms.**

HARPER'S MAGAZINE, one year.....\$4 00

An Extra Copy of either the Magazine or Weekly will be supplied gratis for every Copy of Five Subscribers at \$4 00 each, in one remittance; or six Copies for \$20 00.

Back Numbers can be supplied at any time.

A Complete Set, now comprising Twenty nine volumes, in neat cloth binding, will be sent by express, freight at expense of purchaser, for \$25 50 per volume. Single volumes, by mail, postpaid, \$3 00. Cloth cases, for binding, 50 cents, by mail, postpaid. Address

Der Deytel will dake them for dero sins.  
Oh! der boor Zehicago Poy.

**HANDS ON BOSOMS.**—A mischievous Yankee one day stepped before a shirt manufacturer, and read on a card, hanging outside, these words: "Hands on Bosoms Wanted." He stepped inside, and asked to see the "boss," which individual being brought before him, he innocently inquired whether they wanted hands on bosoms.

"We do sir," was the curt reply.

"Then trot out your females, and I'll take my pick."

"There seems to be some misunderstanding here remarked the proprietor. "Not to my thinking," replied the Yankee; "you want hands on bosoms, eh?"

"We do."

"Very good; you see those hands?" said Yank, holding forth his two, which were more remarkable for size than cleanliness.

"I see them, certainly," said the shirt merchant, not comprehending the other's meaning.

"Good again," said Yank. The hands are here; now all we want is the bosoms to put the hands on. So please trot out the females, and we'll probably make a trade."

The merchant explained the meaning of the sign, and the Yankee left, amid the merriment of some three or four clerks. The proprietor took in his sign soon after, and when he hung it out again it read thus: "Wanted, good shirt-bosom makers."

**JOSH BILLINGS ON HORSES.**—Pedigree is not important for a fast trotting horse; if he can trot fast, never mind his pedigree. There is a grate many fast men, even, who ain't got no pedigree. There ain't much art in drivin' a trottin' horse; just hold 'em bak hard, and holler 'em ahead hard, that's awl. A hoss ul trot fast down a hill, espeshala ef the brich-on brakes. Kuller is no kriterion. I've seen orful meen kullers, eksept green; I never see a meen wun uv this kuller. Hosses liv tu a horribil old age, and I've often seen them fully prepared for deth and then not di after awl. Hethens are allus kind to hosses; it is among Christian people that a hoss haz tew trot 3 mile heets in a hot day, for \$25,000 of counterfit munny.

**When is a gambler like Hamlet's grave-digger?** When he covers a heart with a spade, and says *how feel you* (Ophelia).

**When may be called the "power behind the throne?"** When he plays the deuce and throws an old king on the floor.

**When is he a perfect robber?** When he swings a club and takes your diamonds.

**When does he resemble a stingy man at the bar?** When he orders something up and goes it alone.

**It is related of Thomas F. Marshall, that a judge once having fined him thirty dollars for contempt of court, he rose and asked the judge to lend him the money, as he hadn't it, and there was no friend present to whom he could so well apply as to his honor. This was a stupor. The judge looked at Tom, and then at the clerk, and finally said, "Clerk, remit Mr. Marshall's fine. The State is better able to lose thirty dollars than I am."**

**HAVING THE FIRST BITE.**—Said a country landlord to an old boarder:—"Mr. Jenkins, as you always come in late, have you any objections to this gentleman occupying your bed until the stage goes out?"

"Not the least, I will be infinitely obliged to you if you will put him there, so that the bedbugs can have their supper before I come."

**A little fellow, not more than five years of age, hearing some gentlemen at his father's table discussing the familiar line, "an honest man's the noblest work of God," said he knew it wasn't true; for his mother was better than any man that ever was made.**

**"MOLLY,"** said Joe Kelly's ghost to his wife, "I'm in purgatory at this present," says he. "And what sort of a place is it?" says she. "Fair," says he, "is a sort of half-way house between you and heaven; and I stand it mighty aisy after leaving you."

**WHISTLE.**—They have set up a twelve-inch steam whistle at the Manchester (N. H.) Locomotive works, which it is said can be heard ten miles, and has a very decided effect on sleepers in the morning.

**PARISIAN** old maids dye their lap-dogs. Green dogs, yellow dogs and sky-blue pups are much in vogue.

If you think that your opportunities are not good enough, you had better improve them.

"MARRIAGE," said an unfortunate husband, "is the church-yard of love." "And you men," replied the wife, "are the grave diggers."

A public lecturer in England has selected the curious title and subject of "Old Women of both sexes." The theme is suggestive, to say the least.

Certain barber-shops in Brooklyn, N. Y., employed pretty girls to shave their customers. Business increased rapidly, it is said.

By the Fast Freight Line, goods are being transported from Virginia City to Sacramento for ten cents a pound, and passengers are being transported for \$5.

An Australian woman chops down trees, splits rails, digs ditches, and has made a valuable farm from a swamp which she drained with a spade. Them's um!

**FIRST RATE.**—A notice of a steamboat explosion is thus rendered by a Western paper: "The Captain swam ashore. So did the Chambermaid; she was insured for \$15,000, and loaded with iron."

Ben Cotton, Joe Murphy, and W. H. Smith are organizing a band of minstrels in New York, and will shortly start out on a prospecting tour. So says the N. Y. Clipper.

The gray-haired reprobate who called the new iron clad *Richard Murphy*, when everybody knew it to be *Dick* later was convicted and sentenced to dye with somebody's hair restorer.

It is related that in New York, the other day, a horse fell and died in front of the Astor House, and, before the animal had ceased kicking, an enterprising bill-poster had him covered with "Cash paid for old Rags, at No. 18 Ann street."

Perhaps you did not know that I had corns, said a good-natured man, as a stranger set his carpet-bag down on his toes. No, stranger, said the carpet-bag man, but I think you cultivate too good ground.

**A BROAD HINT.**—A bachelor sea captain who was remarking the other day that he wanted a good chief officer, was promptly informed by a young lady present, that she had no objection to be his first mate. He took the hint—and the lady.

**DADDY'S CROSS.**—"What's that?" asked a schoolmaster pointing to the letter X. "It's daddy's name."

"No, you blockhead, it's X."

"Tain't X neither, it's daddy's name, for I seed him write it many a time."

### MAKE ROOM FOR THE FLORENCE!!

IT MAKES FOUR DISTINCT STITCHES, FEEDS THE WORK, EITHER WAY, SEWS THIN AND HEAVY GOODS WITHOUT CHANGE OF TENSION, WILL GATHER AND SEW ON AT THE SAME TIME.

IT MAKES A STITCH ALIKE ON BOTH SIDES OF THE FABRIC HAS NO SPRINGS TO GET OUT OF ORDER, AND IS THE MOST RAPID SEWER IN THE WORLD. EVERY MACHINE WARRANTED.

We, the undersigned, have each purchased a FLORENCE SEWING MACHINE and have them now in use. We have thoroughly tested them on work of all grades—heavy, medium and light—and our opinion is that the Florence is durable, will not easily get out of order, is strong and simple in construction, and its use is easily learned by the most inexperienced.

It will do a greater range of work, with less trouble and change, and we consider it altogether better than any other Family Sewing Machine we have ever seen.

### PRIVATE MEDICAL AID.

Quick Cures & Moderate Charges.

**DR. W. K. DOHERTY'S**

Private Medical & Surgical Institute.

Sacramento street, below Montgomery, opposite the Pacific Mail Steamship Co's office.

Private entrance on Leavenworth street.

Established expressly to afford the afflicted sound and scientific Medical aid, in the treatment and cure of all Private and Chronic Diseases, cases of secrecy, and all sexual diseases.

TO THE AFFLICTED.—Dr. W. K. Doherty returns his sincere thanks to his numerous patients for the patronage and kind attention they have rendered to him, and for the confidence they have placed in his institute for the cure of chronic diseases of the Lungs, Liver, Kidneys, Digestive, and Genito-Urinary Organs, and all other diseases, viz: Syphilis in all its forms and stages, Seminal Weakness, and all the horrid consequences of self-abuse—Emission, Gleet, Stricture, Nocturnal and Diurnal Emissions, Sexual Debility, Discoloration of the back and loins, inflammation of the Bladder and Kidneys, etc., and he hopes that his long experience and successful practice of many years will continue to insure him a share of public patronage. By the practice of many years in Europe and the United States, he is enabled to apply the most efficient and successful remedies against diseases of all kinds. He uses no mercury, changes moderate, treats his patients in a correct and gentlemanly way, has references of unquestionable standing from men of known respectability and high standing in society. All parties coming to Dr. Doherty for medical aid, will receive the best and gentlest treatment and implicit success.

READ THE FOLLOWING:—A case of Gleet and Stricture.—Dr. Doherty.—Dear Sir: I feel my health so fully restored, and in common gratitude, I believe I should make some written acknowledgment for your valuable services—particularly so as your fee was small for the work performed. I arrived in this city from the East for my medical aid, and was then suffering from an old case of Gleet, complicated with stricture. Being a stranger in this city, and believing those doctors who gave such positive assurance of success were necessarily the best (some of whom have a large number of titles), I placed myself in their charge and continued under their treatment until I had lost nearly all hope and a considerable sum of money. I wish to say now that you are the sixth Doctor I have employed, and the only one that has ever done me any service. My Gleet is wholly cured, the stricture is cured, and I am now feeling as well as I have ever felt. In conclusion I would say to the many unfortunate who require medical advice, if you have any doubt as to whom you may consult, as Dr. Doherty for my medical aid, and call and see me (I keep store in this city). My experience may save you many dollars. I would also add that in the early stage of my disease, I used a large amount of the preparation advertised as an infallible cure for Gonorrhea, Gleet, etc., but never derived any benefit from them. I am, Doctor, very truly, your obedient servant, San Francisco, June 16th, 1864.

Subscribed and sworn to before me, this 21st day of June, 1864. A. S. GOULD, Notary Public.

**SEMINAL WEAKNESS.**—A sworn Certificate of a most remarkable cure of Seminal Weakness. A desire to benefit humanity, and a feeling of gratitude to Dr. W. K. Doherty, alone induces me to make this statement. For many years I have been afflicted with that fearful disease known as "
